Sleeper trains

For operating convenience sleeper trains sometimes use lines not on this map, but the timetabled service stops at these stations (except Newton). Variations from routes shown here are permitted routes for sleeper trains only.

The Fort William sleeper runs from Edinburgh through Springbank and Ashfield to Fort William. It does not go into Glasgow Queen Street. Springbank and Ashfield are members of the Glasgow Group Routeing Point.

Doubling back because of the train running pattern is permitted. Published easements describe these extended permissions.
